

STATEMENT OF INTENT

The Longwood Engineering Company Limited designs, manufactures, installs and services Screens, Control Panels and Associated Equipment for the treatment of sewage and other effluents and the control of pollution. The Company recognises that its activities may have an impact on the Environment.

The Company is committed to a programme of continual improvement in order to minimise adverse effects on the Environment from those activities.

From the highest level we have a commitment to ensure that:

- We comply with all relevant legislation, regulations and other statutory requirements placed upon us. As part of our commitment to maintaining the highest levels of environmental management, it is our intention that we maintain accreditation of our Environmental Management System to ISO14001 and continually integrate with occupational health and safety, and quality and other management systems.
- These requirements are considered on an equal footing to other business interests
- We will acquire competent assistance both internal and external to enable the Company to achieve its environmental objectives.
- Targets and objectives are set for the reduction any impacts on the environment. Measure and take action to reduce the carbon footprint of our business activities to meet our published objectives and targets.
- Actively promote recycling and waste minimisation by continuously evaluating and monitoring our operations, purchase of resources within the company to ensure their efficiency. Manage waste generated from our business operations according to the principles of reduction, recycling.
- We continually offer employee training, awareness and development to promote a proactive attitude and culture and to motivate all employees to act in an environmentally responsible manner
- The Company's commitment to good environmental practice is relayed to all employees, contractors, suppliers, customers, the general public and other stakeholders as appropriate.
- The Company's environmental performance is continually assessed through communication and monitoring so that continual improvements and the setting of relevant environmental objectives and targets can be implemented.
- Effective and expedient incident control, investigation and reporting takes place if the situation occurs. Manage our business operations to prevent pollution.

Declaration

This Policy Statement and associated procedures are approved by the Managing Director of the Company to define, endorse and demonstrate our commitment to minimise any environmental impacts. The operation of this policy and associated procedures will be monitored and reviewed annually or where changes occur in relevant legislation or Company procedures.

Management and supervisory staff have responsibilities for the implementation of the policy and must ensure that environmental issues are given adequate consideration in the planning and day-to-day supervision of all work.

L-J Battye

Director / Company Secretary

This policy is reviewed at least annually and revised as often as may be appropriate in line with the Health and Safety Management system and auditing procedures.
