

Skilled and Semi-skilled Site Operatives

Longwood Engineering manufactures screens and screenings handling equipment for the water and sewage industry.

We require Skilled and Semi-skilled Site Operatives to install, maintain, service, inspect and repair our range of screens and screenings handling plant on installations around the UK.

Working Requirements:

- CSCS, Confined Space and Lift Supervisor training an advantage but necessary training will be provided
- Driving of company vehicles as part of an installation team
- Hands on installation, snagging, problem solving, inspection, repair and maintenance as necessary
- Must be prepared to travel on a weekly basis

Suitably experienced personnel (preferably within the water and sewage industry) can apply for this position by uploading a copy of your cover letter and CV on our Careers page:

www.longwoodengineering.co.uk/careers

Or send their cover letter and CV by post addressed to:
