

STATEMENT OF INTENT

The Longwood Engineering Company Limited is committed to operating to best practises. To achieve this we continually ensure that our systems of work are aligned to;

- Occupational Health and Safety practices (ISO 45001)
- Quality Management System (ISO 9001:2015)
- Environmental management (ISO 14001:2015)

We have developed and integrated our management system in line with 2015 revisions of the standards, gaining accreditation during 2020. This management system is continually audited and reviewed, and training provided to all employees regarding its contents. These accreditation will work alongside our Sustainable Supply Chain Charter and CSR.

As management of the Company our core values are:-

- Actively promote a safe workforce. The health, safety and wellbeing of our employees is our number one priority. They have the right to leave work each day in the same condition of health as they arrived that morning.
- Set a good example and uphold our best practices and commitments to our employees, customers and the supply chain
- Ensure that our employees are trained, understand and work in line with and to our best practises.
- We will support and train our employees to ensure that they are engaged and competent in their work to achieve their role requirements.
- Maintain a suitably approved supply chain, gain 360 degree feedback, continue to support our supply chain charter and act upon it where necessary.
- Demonstrate compliance with health, safety and environmental laws and regulations.
- To provide our customers with high quality, robust, suitable products and services to meet their needs.
- To gain suitable orders for the Company

Declaration

This commitment statement is approved and signed by the management team in order to demonstrate our joint commitment to the continued development and integration of Health, safety, quality and environment management systems within the company. Also to set out the key leadership values and behaviours to provide a productive, safe and healthy workplace.
